Personal Projects

Pedali

Workout Interval iOS App

Top 200 in Paid Health and Fitness Category

UT Skate Spots Directory

A directory for skateboarders in the UT area to find places to skate

Includes notes/pictures about obstacles, lighting

Photo Viewer Reborn

A simple photo viewer for Windows

Faster and clearer images than Windows "Photos" app when created

My website - https://leeaforbes.github.io/mywebsite/

A website about me that has some web projects on it and a history of my site

Learning Java Lesson Sets

I created a set of lessons for a beginner to learn Java

Includes everything from installing Java, setting up Eclipse IDE, example code, labs, and projects

UTRunner

Generates a loop to run in for the UT area given distance and starting point

Clickquick

An Android app deployed to the Google Play Store

Click squares and race the clock to beat your time

Quoridor

An Android app to play the game Quoridor

Minecraft Spigot Plugins

I created many tool and minigame plugins that can be added to a Minecraft Spigot server

Major projects: Capture the Flag, Paintball, Hunger Games, Ultra Hardcore, Spleef

Not So Super Smash

A platform fighting game made in Java

Pick your character, battle your friends, and try not to fall!

Discord Bots

I used Node.js to create few simple bots for a Discord server with friends

Count Formula: a bot that ensures users only count in order in the #counting channel

AnGuard: a bot that allows users to hide their messages that include anime spoilers
